painting, fitting kitchens, exterior works., and false ceilings to the extent of painting and to the finished build. We work around the needs of your business and will turn around a typical shop-fit within a couple of weeks.

# SAFETY & HEALTH POLICY

We believe that all injuries, work-related illnesses, and accidents are preventable, & we strive for the highest standards of safety and health performance. Our safety culture is based on prevention, hazard awareness, continuous improvement & compliance with carefully developed procedures. Health & Safety policy confirms **FS Biroul** commitment to pursue the highest standards of Health and Safety performance in compliance with all applicable local, national and international standards and clients' requirements related to our business.

**FS Biroul** recognizes that all levels of Management and Employees have a vital responsibility and accountability in the implementation and maintenance of our Health and Safety programmed.

Specific roles and responsibilities have been assigned for the coordination and implementation of Health & Safety Management system.

We have on adequate safe conduct policy complying with the occupational health and safety. Accident prevention program has included safety policy, organization & responsibilities, system, development, and implementation.

It is the policy that the Project Safety Program embodies the prevention of accidental injury property damage, fire damage and that occupational health and safety, it is to be regarded as a prerequisite in all operations.

The project team and all other workers on the jobs are expected to conduct their work safe manner. Safety Officer/Project in Charge has to perform his pal of the work using safe methods. Work must be performed in a safe manner to eliminate injury, and damage property.

Within the cleaning work of this policy all operatives of the project team have a role to play in maintaining the highest of health and safety and in accordance with the requirements of rules and regulations of the local Authorities in Qatar.

We must continue to improve of effectiveness of our Safety Program to assure compliance with these and any like regulations which may be imposed. The elimination of injuries to the public and damage to property is equally as important as any port of the Safety Program. Therefore, work must be performed in a sole manner to control all hazards.

This policy forms the basis for a reduction in hazards and on improvement in health and safety at work. Its effectiveness shall be result of individual and combined efforts of every member of the Project Team.

Thanks 😊
